

Before editing, please enable the following fonts:

- Press Start 2P
- Source Code Pro

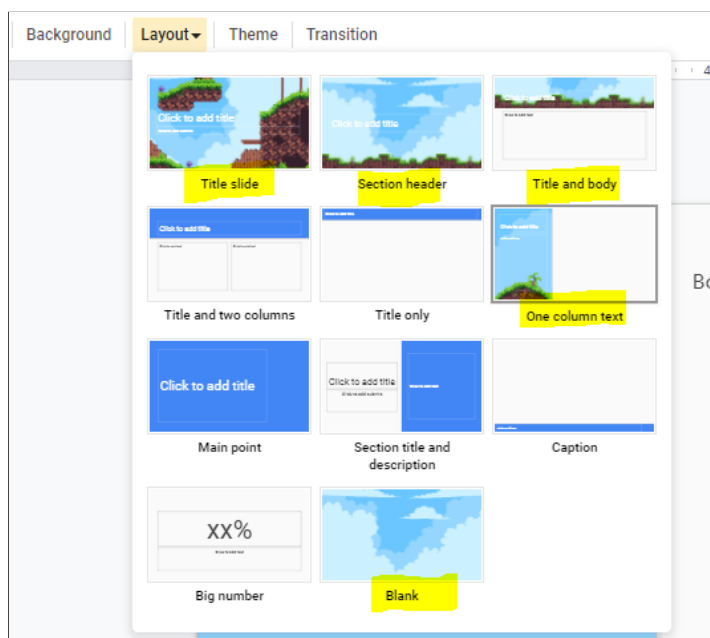

5 slide templates available are:

1. Title Slide
 2. Section header
 3. Title and body
 4. One column text
 5. Blank
- Bonus: Theme assets and icons

You can also see the <<Layout>> tab to toggle between the slide templates

If you're unable to edit the designs, you can edit them on the master deck.

- Help > search *Edit Theme*

Font Sizes (they're already set on the decks right now)

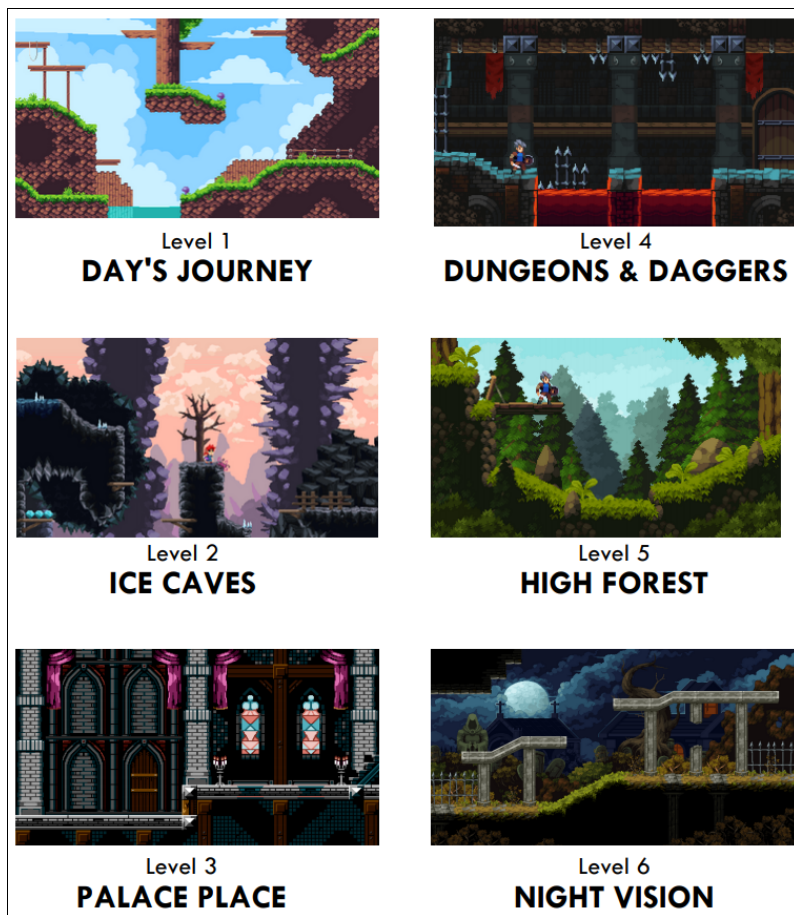

- Main header: Press Start 2P | 30px, all caps
- Section header: Press Start 2P | 30px
- Title text : Press Start 2P | 24px
- Body: Souce Code Pro | 12px

continue

Daily Themes

Each day has a different theme (different “level”). The level is associated with each day (ie. Level 1 = day 1, etc.) so please keep that in mind when sharing the templates with your Day Teams!

For Day 7 (DT3), there is only closing ceremonies event so we can just make the deck instead of making a template first.

Theme Colours

There are custom colours already set in all the deck templates. They are associated with our theme colours, below are the hex codes if you need them:

#263175	#ec4a9e
#33bce5	#f5c60b
#df2f2f	#e5e5e5

If you see other colours in the <<custom>> tab, they were set by the original designers and I can't take them out, you can ignore those.
